Ogden City Corporation
Request for Proposal

Wall Avenue Corridor Plan

Q & A

1. **We understand from the proposal meeting that the Cover Page and Resumes do not count towards the page total. Does the Cover Letter count?**
   a. We will exclude the cover letter from the count as well. Please limit to one page.

2. **What are excluded from the page limit?**
   a. Cover Page
   b. Resumes
   c. One-Page Cover Letter

3. **Related to Data Collection and Analysis, will UDOT or Ogden City provide traffic counts /Strava data? This item can use up a significant part of the consulting agreement budget.**
   a. Per UDOT Representative, their Region One or Central Offices can provide the average daily traffic (ADT) counts and the peak times as well as any Strava data they have collected. The contact information of the actual UDOT Staff that can help with securing the data will be provided to the awarded Proposer.
   b. Per Ogden City Engineering team, they can provide traffic counts for many of the secondary streets that feed into Wall Avenue. Also, the team indicated that UDOT has a website that provides ADTs for their streets. The most critical and accurate data that will be needed are from segment 12th Street to 30th Street.
      i. UDOT AADT Google Map - Here is the link to download the KMZ file to use in Google Earth.
      ii. https://www.udot.utah.gov/connect/docs/aadt-google-map/
