Ogden Restaurant Week, April 12 - 21

Get ready to indulge at Ogden's independent, locally-owned restaurants during Ogden Restaurant Week.

Select downtown restaurants will be featuring a two-course lunch for \$10 and a three-course dinner for \$17. Here are some tips on how to make the most of these taste-bud tingling specials:

- **Plan ahead!** With so many restaurants to try, start exploring your options and restaurant menus online.
- **Check the time!** Not all restaurants are open for lunch or on Sundays, so double check hours before you commit to going out.
- **Make a night of it!** There is always something going on downtown, so make sure to check out the event calendar and add some pre/post-dining activities to your excursion.

Go to your favorites or try something new by going online to find out who is participating and what their menu consists of.

Make a Difference Week, April 14 - 28

Looking for an opportunity to volunteer in your community? Ogden City's 10th annual Make a Difference Week event will run for two weeks and include plenty of opportunities to contribute to the community. The City will once again partner with Comcast on April 21, 2018, for its annual Comcast Cares Day project. Volunteers will help to clean up and beautify the Ogden River Parkway Trail. This project will begin at 8:00 a.m. and will involve spreading wood chips in playgrounds, trimming foliage to keep trails safe, picking up trash and other tasks that will help preserve the natural beauty of the area. Free breakfast and lunch are provided for all Comcast Cares Day volunteers, and those who pre-register will receive a Comcast Cares Day t-shirt.

If you miss the trail clean up, there are other opportunities waiting! Groups of friends, neighbors or co-workers are encouraged to sign up for other service projects in the community. Projects can be as simple as helping a neighbor clean his or her yard, painting, or repairing a fence. Large-scale projects can include sprucing up a neighborhood park, rejuvenating a playground, assisting in the community garden, or beautifying flowerbeds. This event is all about making a difference, big or small, for those who live, work and play in the Ogden community. The City will receive a financial grant from Comcast based on the number of volunteers who participate which will be used to fund future volunteer projects. Ogden City is happy to provide ideas to anyone interested in projects for their group. Registration and information can be found by calling or going online.

Three Facts to Help You Recycle this Spring

Blue recycle carts can be requested from Ogden City and collected with regular garbage services at no extra charge in order to promote Ogden City's environmental initiatives.

Here are three facts to help keep you informed while using your recycle carts:

1. **Styrofoam** is not recyclable and should be put in the green trash carts.
2. **Large boxes** that are too big need to be broken down in order to fit in the blue recycle carts.
3. **Green Waste** is not allowed in recycle carts, but it is accepted at the green waste facility on Monroe Blvd.

When placing your carts out by 6:00 a.m. on the street for collection, make sure they are at least five feet away from each other and any hanging tree branches, mailboxes, or parked vehicles.

Register by March 31 for Earth Day Lawn Mower Exchange

Weber State University's sustainability offices and the Weber-Morgan and Davis County Health Departments are hosting the Cut Pollution – Mow Electric program. Those who enter the program and are selected through an online lottery, can turn in their operable gas-powered mower and receive a new Kobalt 40-volt cordless electric lawn mower with mulching capability for \$100. Fee waivers are available for those in need. Applications will be accepted throughout March with winner notifications going out April 6, 2018. Details can be found online.

Emergency Preparedness Message: Shelter and Temperature Control

Evacuating or Sheltering in place during an emergency depends on the situation and the instructions of the local authorities. Make sure you are prepared for either situation by following these tips:

1. **Make sure you have heat and shelter necessities prepared in a 72-hour kit before evacuating.** Tube tents, emergency sleeping bags, and solar blankets are lightweight options for shelter. Hand warmers, waterproof matches, and emergency candles provide the heat necessary to survive.
2. **If shelter in place (SIP) is issued by local authorities, remain inside your home or business.** This may be due to an accidental release of toxic chemicals or emergencies involving hazardous materials where air quality may be threatened. Take children and pets inside immediately, while covering your mouth and nose with a damp cloth to provide a minimal amount of protection.
3. **During SIP, block and avoid all forms of entrance or ventilation while taking shelter in an above-ground room.** Stay away from windows, doors, and fireplace dampers while turning off all fans, heating or air conditioning systems. Place wet towels under door cracks and tape plastic sheeting or garbage bags over doors, windows, exhaust fans, vents, and outlets.
4. **Make sure you have a radio and are listening for updates and instructions on the situation.** During SIP, make sure to stay in place until it is communicated that the area is safe or evacuation is needed.

Learn more about Hazardous Materials in your community, attend your Local Emergency Planning Committee (LEPC) meeting.
